

STEGERSBACH UND OBERWART
6. BIS 10. MAI

6. - 8. Mai, Stegersbach

STREAM

PV Direct Use and Energy Communities

Exchange of R&D project leaders and living lab initiatives
SET-Plan Action 4 & “City of the Future” Thematic Workshop

Date: **Monday**, May 6th 2019 13.00 h till **Tuesday**, May 7th 2019, 18:00

Location: **Hotel Allegria, Golfstraße 1, 7551 Stegersbach, Austria**

Registration via: <https://missioninnovationaustriaweek.at>

Members of the SET-Plan Action 4 consortium and the BRIDGE community as well as member of the SdZ community: please register via: [this link](#)

Version 2.2

Wir bringen die globale Initiative Mission Innovation nach Österreich

 Bundesministerium
Verkehr, Innovation
und Technologie

PV direct use on a local and regional level and solutions for Energy Communities

Self-consumption of PV electricity from grid-connected residential systems is gaining importance since increased self-consumption can raise the profit of PV systems and lower the stress on the electricity distribution grid. The workshop addresses demand-side flexibility, neighbourhood energy exchange and energy storage as different approach to achieve an increase in self-consumption.

The workshop is part of the Austrian workshop-series “**City of the Future in Practice**”, in which practice relevant R&D results of the technology program “City of the Future” are presented and discussed. The workshop is organized in collaboration with the **SET Plan Action 4 Initiative Families of living labs to develop technology - service systems for direct use of PV energy on an aggregated level of multi-family buildings, districts or communities** (SET-Plan Action 4 Implementation Plan A4-T2.2-2: Multi-dimensional local energy systems) as well as in collaboration with the BRIDGE group on Energy Communities.

Goals:

- Identify relevant R&D projects and Living Lab Initiatives in member countries
- Bring national and European project leaders together
- Exchange first experiences in the projects
- Discuss barriers in implementation in different countries
- Discuss different legal aspects in the participating countries
- Agree on next steps within the planned joined activities

Program Monday, May 6th 2019

Chair: Hannes Warmuth, ÖGUT

- | | |
|--------------|--|
| 13:00 | Opening
Gaëtan Masson, Becquerel Institute, Belgium
Volker Schaffler, Austrian Ministry Transport, Innovation and Technology, Austria |
| 13:30 | Testing and Demonstrating Solutions for Regional Renewable Energy Systems
Michael Niederkofler, Living Lab act4.Energy, Austria |
| 13:50 | Living Lab Turning Tables Granada
Rafael Bahamonde Nieto, Turning Tables, Spain |
| 14:10 | P2PQ - Optimizing Self-Consumption by Peer-To-Peer Relations among Prosumers
Wolfgang Otter, Wien Energie, Austria |

Chair: Katrin Bolovich, FFG - The Austrian Research Promotion Agency

14:30 **Coffee break**

15:00 **UrSOLAR - Optimization of solar energy use in urban energy systems**
Ernst Meißner, Grazer Energieagentur GmbH Austria

15:20 **RegEnergy**
Nadine Mounir, PLANAIR, Switzerland

15:40 **Panel Discussion**

Chair: Willi Hantsch, Austria Wirtschafts Service, Austria

- Rafael Bahamonde Nieto, Turning Tables, Spain
- Job Swens, Netherlands
- Michael Niederkofler, act4energy, Austria
- (tba), Wien Energie, Austria

17:00 **Expert Meeting SET Plan Action 4: Collection of international use cases in a case book**

Chair: Gaëtan Masson, Becquerel Institute, Belgium

Networking with international experts

19:30 **Evening Event**
Regional welcome evening „Südburgenland mit Wildspezialitäten, regionalen Köstlichkeiten und Live Musik“

Location: [Der Trummer in Stegersbach](#)
(please register on the MIA19 website!)

Program Tuesday, May 7th 2019

Chair: Hemma Bieser, avantsmart

9:30 **Keynote: It's not a game. It's a game changer.**
Johanna Pirker, computer scientist focusing on game development, TU Graz, Austria

10:30 Scale-ups and their Success Stories

Short presentations

- Alexander Friedrich, 3FSolar
- Werner Weihs-Sedivy, Twingz
- Peter Käfer, meo Energy

11:00 Coffee break

11:30 How Future Innovation Processes will look like

Ideas for the future energy system - how innovation processes must be designed in the future to actively support successful market launch of technological developments with *Panel Discussion*

Chair: Florian Maringer, Austrian Renewable Energy Association

- Elena Boskov Kovacs, Blue Print Energy Solutions
- Olle Dierks, A Challenge from Sweden
- Janice Goodenough, CEO at Hydrogrid
- Michaela Leonhardt, Austrian Power Grid

Lunchbreak

Workshop on Local Energy Communities

Chair: Andreas Türk, Joanneum Research, Austria

13:30 Intentions for Local- and Citizens Energy Communities in the EU Energy Package

Mikolaj Jasiak, European Commission, Internal Market for Electricity and Gas (tbc)

14:00 Legal and Regulatory Barriers in European Countries and Regions

Job Swens, Consultant, Netherlands

14:30 New Business Models and their limitations

Short presentation from national and European practitioners

- Alexandra BATLLE, PV self-consumption projects in France, TECSOL, France
- Tarek Ayoub, World Direct, Austria and Sophia Neuner, Project SINFONIA and Smart City Lab Innsbruck, IKB, Austria
- Leen Peeters, THINK-E first insights from the Belgian ROLECS project on LEC roll-out in Belgium

15:30 End of Workshop

Coffee break

16:00 **Regulatory Sandboxes, international Perspectives and Implementation in Austria**
Urban Peyker, Österreichische Forschungsförderungsgesellschaft

16:30 **Panel Discussion**

- Andreas Eigenbauer, E-Control, Austria (tbc.)
- Andrej Gubina, University of Ljubljana (H2020 COMPILE project), Slovenia
- Urban Peyker, Österreichische Forschungsförderungsgesellschaft
- Job Swens, Netherlands

Expert Meeting SET Plan Action 4:
Development of a Living Document on relevant regulation and legislation for PV Self Consumption projects in different member countries

Chair: Job Swens, Netherlands

17:30 **Expert Meeting**

18:00 **End**

Networking with international experts

19:30 **Evening Event**

Themenabend und Verleihung des [Energy Globe Burgenland](#)
